TRANSITORY RECORD

Ms [REDACTED]

I need to request the file above in order to respond to a Freedom of Information Act litigation. As you can see in the emails below the case agent [REDACTED] has approved the processing of this file by RMD with division review. Please forward all available portions of this file to me here in Winchester VA. I have attached the FO request form below.

Thank you,

That's fine if we'll have time to review before release. We only have a couple of other directions to follow up on and it is related to developing a separate subject involved with Epstein. By the time the FOIA processing is completed we should have those outstanding leads resolved. Thanks.

The attorney for OIP who made the initial inquiry regarding this case sent me an email informing me that she will recommend overturning the 'B7A' exemption for this file (and thus making it subject to FOIA processing) if she does not receive a 'harm rationale' today. In the event the file is processed it would still be available for division review (Miami, Tampa, or both) of RMD's proposed redactions before any release was made.

OIP is now telling me they need an articulation of harm in regards to processing the file for FOIA. If you could provide that (such as: it would discourage witnesses, hamper the gathering of leads, endanger informants, etc.) that would be great. Otherwise please let me know who I can contact in Tampa who might be able to help.

Thanks,

SA [REDACTED]

This is in regards to Jeffrey Epstein, a main subject of the file above. Mr. Epstein has made three Freedom of Information Act requests for his FBI file since 2010 and has appealed our latest denial in December 2012 to DoJ's Office of Information Policy. As such I am required to verify that the case remains pending. For RMD to be able to deny processing the file there must be potential prosecutive action remaining, such as continuing appeals, rather than simply remaining pending awaiting destruction of evidence.

Thanks,
